THE ISLANDS

AUSTRALIAN FAMILY  
OWNED & OPERATED

SERVICING THE FOOD  
INDUSTRY FOR OVER  
40 YEARS

## The PE Foods Story

PE Foods started back in 1981 as a one stop shop for the bakers of the baking industry and remains a powerhouse to this day.

Throughout the years we have supplied everything a baker could possibly need from the basic ingredients through to the more challenging to source items.

In our quest for continuous improvement, the last decade has seen exponential growth with the acquisition of other food distribution businesses and setting up regional branches.

All of this has seen us expand beyond our original scope, whilst remaining loyal and steadfast to our grassroot customers. As a part of our ongoing expansion and commitment to provide even more to our customers, we now have a dedicated Artisan and Specialty Foods division as well as our original Bakery business.

Falling under the PE Foods umbrella we can now bring specialty artisan producers from Australia and abroad, like never before to quality restaurants, hotels, cafes, caterers, wholesalers and retailers from Northern NSW through to Far North QLD, the islands and beyond, whilst increasing new exciting possibilities to our bakers.

## Our Vision, Approach and Process

As a part of our commitment to the food industries we serve, all our Territory managers are classically trained chefs, bakers and pastry chefs who have worked for many years in their chosen profession and remain passionate about the industries they have dedicated their entire working careers to.

This commitment allows us to be more than just a delivery service, by offering technical know-how and hands-on working experience in the variety of food businesses we supply.

As an all Australian family-owned business, we are passionate advocates of Australia's small sustainable food producers. We love to share, support, and distribute their products with like-minded chefs and bakers, along with providing the best the world has to offer.

*"Food delights us, food unites us, food embodies the soil, the sea and the weather, the farmer's sweat, and the fisherman's toil."*
